

IPA invites you to **IBC EMEA 2024**

An Exclusive Event for IBC Member Companies Operating in the EMEA Region!

EVENT SUMMARY

You and your colleagues are invited to attend an exclusive Industry Benchmarking Consortium (IBC) meeting specifically for companies operating in the Europe, Middle East, and Africa (EMEA) region! This year, the meeting returns to The Hague, The Netherlands on 14-15 May 2024!

Attending companies will compare key performance and practice metrics—for both large and site-based projects—to understand how well their capital efficiency improvement efforts compare to their peers.

RESEARCH AND NETWORKING

In addition to performance metrics, attendees will also receive exclusive new research addressing key industry topics. The research studies will be selected based on the response from the annual US IBC conference, held in March 2024. The agenda also includes time for networking with other project professionals and discussions with IPA regarding your company's performance.

HOW TO ATTEND

Click the REGISTER button and enter the event code (provided to your company's IBC point of contact) when prompted. We ask that all attendees register by Friday, 10 May.
